

Global Bond Fund

Fund Summary
as of 26 November 2019

Investment Objective

To provide a medium to long-term rate of return by investing mainly in global bonds.

Investment Scope

The sub-fund will invest mainly in global government and corporate bonds, mortgage backed securities and asset backed securities. The portfolio will have an average investment grade rating by Standard and Poor's and the sub-investment manager is allowed to have some currency exposure. The sub-fund is denominated in Singapore Dollars.

Investment Approach

The sub-fund's investment approach is active and value driven, focusing as much on the quality of the views as on portfolio construction. The process relies upon a rigorous macro-economic approach which results in top-down directional and relative value views.

The sub-fund equally sets up relative value strategies within each fixed income sub-class, using over and underweight positions simultaneously, in order to take advantage of a given market's behaviour independently of general market trends. Reflecting the sub-fund's long-term strategic views, the sub-investment manager implements the portfolio's overall position, applying a rigorous bottom-up process to issuer selection.

Risks

Key Risks

Income's ILP sub-funds are intended for long-term investment, it is not suited for any short-term speculation. You should not expect to obtain any short-term gains from investing in Income's ILP sub-funds. It is important that your investment suit your risk appetite. You may wish to consult your financial adviser before investing in any ILP sub-fund.

The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.

You should be aware that past performance is not indicative of future performance. The value of the units may rise or fall as the performance of the sub-fund changes.

The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below. This is not an exhaustive list of risks.

Market and Credit Risks

You are exposed to market risks. Prices of the securities held by the sub-fund may go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting securities markets generally or particular industries.

You are exposed to interest rate risks. The sub-fund's investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.

You are exposed to currency risks. Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a sub-fund's investments to diminish or increase. Currency exchange rates may fluctuate significantly over short periods of time.

Global Bond Fund

Fund Summary
as of 26 November 2019

You are exposed to credit risks. Changes in the financial condition or credit standing of an issuer may negatively affect the sub-fund. An issuer of fixed income securities may suffer adverse changes in its financial condition and unable to pay the principal and/or interest on the instrument.

Liquidity Risks

You are exposed to liquidity risks. There is no secondary market for the sub-fund. All redemption requests should be made to the Manager.

Product-Specific Risks

You are exposed to derivatives risks. The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund.

The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

You are exposed to high yield risks. The sub-fund may be subject to greater levels of interest rate, credit and liquidity risks than funds that do not invest in such securities.

You are exposed to emerging markets risks. Investment risk may be particularly high to the extent that a sub-fund invests in emerging market securities of issuers based in countries with developing economies. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

Expense and Turnover Ratio

	Expense Ratio	Turnover Ratio
As of 31 December 2018	0.88%	65.14%
As of 31 December 2017	0.88%	116.18%

Expense ratio does not include (where applicable) charges for insurance coverage, brokerage and other transaction costs, performance fee, foreign exchange gains or losses, front or back end loads arising from the purchase or sale of collective investment schemes and tax deducted at source or arising out of income received.

Soft Dollar Commission or Arrangement

The Manager and Sub-Investment Manager do not retain for its own account, cash or commission rebates arising out of transactions executed in or outside Singapore. The Manager and Sub-Investment Manager also do not receive soft dollars for the sub-fund.

Conflicts of Interest

Income

As the Manager of various Income ILP sub-funds and insurance funds, we may from time to time have to deal with competing or conflicting interests between these sub-funds/insurance funds. However, we will use all reasonable endeavours to act fairly and in the best interest of the sub-fund. We will conduct all transactions with or for the sub-fund on an arm's length basis. The Manager has in place policies and procedures to monitor and mitigate conflicts of interests which may arise in the management of these sub-funds. We believe that these policies and procedures are reasonably designed to ensure that portfolio management decisions are made in the best interest of the sub-fund and each sub-fund is treated fairly, regardless of the existence of any conflict.
